ISTD Level 4 Certificate in Vocational Graded Examination in Dance:  
Advanced 1 Analysis in Modern Theatre, Tap Dance, Imperial Classical Ballet, Cecchetti Classical Ballet

ISTD Level 4 Diploma in Vocational Graded Examination in Dance:  
Advanced 2 Analysis in Modern Theatre, Tap Dance, Imperial Classical Ballet, Cecchetti Classical Ballet

Rationale
The Advanced 1 and 2 examinations test high level technical knowledge and skills and, as such, serve as entry requirements for the Licentiate and Fellowship teaching qualifications. However fewer vocational colleges now offer ISTD examinations and, as a consequence, fewer high level dancers have the opportunity to take these examinations as students. This creates a potential barrier for knowledgeable and skilled dance teachers who wish to gain Licentiate and Fellowship qualifications and thus progress on to become Examiners and Committee Members.

The ISTD is therefore introducing alternative Advanced 1 and 2 Analysis examinations in Cecchetti Classical Ballet, Imperial Classical Ballet, Modern Theatre and Tap Dance to test the same technical and artistic knowledge, without relying on high level physical fitness. These examinations will be available worldwide from January 2018.

Aim
The new Analysis examinations are designed for those teaching, or wishing to teach in the future. They will sit alongside the current Advanced 1 and 2 examinations which are designed for those wishing to dance, or to evidence technical dance skill.

Purpose Statement
This qualification evidences understanding and knowledge of the genre at Advanced 1/Advanced 2 Vocational Graded Examinations in Dance levels and is suitable for those wishing to pursue a teaching career.

Entry Criteria

- Intermediate in the relevant genre.
- These exams are designed for candidates who have long-lasting and permanent physical conditions, not for those with an injury. Therefore candidates will be required to complete a Statement of Physical Limitation form at the point of application, which will also be signed by their teacher.

Exam Format
They are not just for the mature candidates and in these qualifications in all cases the candidates must attempt all the exercises but these may be to a limited degree for some exercises depending on their restriction. They would then have to analyse the movement in a detailed way to demonstrate the knowledge from a dancer’s point of view. The exam format will be based on the Performance exam format and specify that the Examiner will request:

- Accurate demonstration of each exercise, with the option to then request:
  - Analysis of a section of the exercise or
  - Full performance of a section of the exercise in order to elicit further technical, musical or artistic detail.

The examination will be marked solely on the candidate’s ability to accurately demonstrate and analyse performance of the syllabus and will not include knowledge of how to teach the syllabus, so questioning will not stray into this area of knowledge.

To satisfactorily demonstrate the appropriate technical and artistic knowledge requires a mature level of judgment and adaptation, which replicates the knowledge and skills required of a teacher who is teaching material of this level to students. As such, this exam equates to the same level of difficulty as the Advanced 1 / 2 Performance exams, but without the physical demands.

The Analysis exams will be the same length as the Performance exams, but candidates will enter singly.

Reasonable Adjustments
Because this examination is designed for those who in general, are more physically challenged in performing some movements because they are beyond their peak physical fitness, it is not normally applicable that there would be any further reasonable adjustments requested.

However, we are asking for an ARA application if the candidate has been diagnosed with something specific – for example, Asthma, or if they have had a recent operation, in which cases extra time might still be needed. This examination is not an easier alternative for students who might normally complete the dancer’s version with reasonable adjustments – it requires an ability to break down and demonstrate movements with a more developed understanding than might be seen from a typical student. In general we would advise that a student with a specific disability would be better to take the normal version with the examiner being aware.
Statement of Physical Limitation
We are asking for the form to be completed at the time of the examination request (although sent separately to CS & QA) so that we can process it in time. It is important that the Exams departments are aware in advance that this examination is included in the timetable in order to be able to select examiners effectively. As soon as we are aware of the examiner booking we will send a copy of the form to the examiner, so that they can consider and prepare for the specific areas of the examination which might require more discussion as a consequence.
